IMPORTANT NOTES FOR ALL BIDDERS

We would expect that the wise buyer will submit numerous bids, all at levels commensurate with his idea of the value of each lot. On items that he really wants badly, the serious bidder will bid well above the top estimate, recognizing that his bid will be reduced to 10% above the second highest bid, but also realizing that he may be in competition with other seriously interested bidders.

In those sections which show a price range for an estimate, the low figure represents a wholesale evaluation, while the high figure indicates what a serious specialist would gladly pay for the lot. Bids less than the lower of the two figures will most likely be unsuccessful; bids above the higher figure will most likely be successful and will most likely be reduced as outlined above (see also paragraph 2 of TERMS OF SALE).

In those sections where only one estimate is given, in some instances with a plus mark, these estimates represent what we believe to be a fair wholesale price and/or the reserve. In many cases these single estimates represent our own cost value. In nearly all cases, bids below these estimates will not be accepted. Generally speaking, our estimates should serve as useful guides, but all bidders should use their own knowledge and experience as the final tools to determine their bids.

We make the following suggestions to all bidders:

- (1) Bid what you wish on each item, but keep the estimate and reserve prices in mind lest you waste your opportunity to acquire an item you particularly desire.
- (2) Bid the maximum bid you would pay for the lot, recognizing that if your bid is high, relative to other bids, your bid will be reduced in accordance with paragraph 2 of TERMS OF SALE.

At the conclusion of the listing of all lots we have observed that many of our estimates in the paper money section as well as the gold section, may be considered low and are expected to realize prices at above our estimates. We make this observation based on the increased interest in paper money and the ever-increasing interest in gold. So also, all rare numismatic items are finally being recognized as such and are finding their ranks in value.

Requests for additional information, confirmation of the grade, date, mint mark, etc., of any particular items, or any similar individual questions are welcome and will be answered as promptly as possible.

An asterisk (*) before the lot number indicates that the actual lot offered for sale is photographed and can be found in the PLATE SECTION.

TERMS OF SALE

1. This is a mail bid sale. All mail bids must be received at our place of business not later than 11:00 p.m. Central Daylight Time, May 20, 1977. The highest mail bid for each lot will buy it. The highest mail bid on each lot may be reduced to just above the second highest mail bid (see item 2). On this basis it should be obvious that mail bidders should bid generously, if they are desirous of obtaining any particular lot or lots.

2. Terms of reduction: (a) No reduction will apply to bids of \$10.00 or less. (b) On bids of \$10.01 and up, the highest bid will be reduced to 10% over the second highest bid. For example, if your bid on Lot #100 is \$70.00 and the second highest bid is \$50.00, you will obtain the lot for \$55.00 (or \$50.00 + 10%). However, if your bid is \$70.00 and the second highest bid is \$65.00 then no reduction will apply as 10% over the second highest bid will be \$71.50. When reductions apply, amounts will be rounded off to the nearest half dollar.

3. An estimate is given for most lots. These estimates simply represent the owner's idea of the value of the item or our professional opinion as to what each lot is worth. **THEY ARE ONLY ESTIMATES AND YOU CAN BID HIGHER OR LOWER AT YOUR DISCRETION.** To further clarify this, please read the "Notes to Bidders". We recommend that if you seriously want a lot, you should bid close to or over the estimate given herein.

4. All bids are to be made by LOT NUMBER as listed in this catalog. (Please make sure that your bids are legible.) Bids should be made only in United States Funds. In case of tie bids, preference will be given to the bid with the earliest postmark.

5. Lots will be sent on open account only to customers who have established credit with us. New accounts must furnish satisfactory credit references and/or include a 20% deposit. New accounts requesting shipment to a post office box or to general delivery must also furnish their home or business address. Bidders who have not established credit with us will be invoiced for their successful bids; lots will be sent upon receipt of payment.

6. All successful bids must be honored in U. S. funds immediately upon receipt of the lots or the invoice. This is absolutely necessary so that consignors can be reimbursed. Special arrangements for payment are possible if the amount involved warrants such treatment. If this is necessary, please request it BEFORE the auction, not after.

7. BankAmericard, Mastercharge, or American Express may be used to pay for successful bids provided the purchaser agrees to pay the service charge billed to us by our bank on such transactions (3% on BankAmericard, 4% on Mastercharge, and 5% on American Express. Foreign bidders should make payment by International Bank or Postal Money Orders or drafts payable in New York. Bidders making payment by bank drafts drawn on a foreign bank, please add U.S.\$3.00 as this is the minimum bank service charge charged to our account.

8. Postage and insurance or registration fees will be added to all invoices. Foreign bidders will be charged 1% of the total value to partially cover insurance fees, and our insurer will be responsible for any losses. Foreign bidders should advise if special shipping instructions are necessary.

9. 5% sales tax will be added to all lots mailed to Texas addresses, except dealers.

10. Auction sales ARE NOT approval sales. Upon submitting bids you agree to abide by the "Terms of Sale". Experts have described all lots; any errors made by them will be gladly corrected. Likewise, you are responsible for any errors you make. Returns can only be made with our written approval; request for such must be made within ten (10) days of dispatch of lots by us.

11. Title to all lots will remain with the cataloguer until payment in full is received. All items are guaranteed to be authentic (unless otherwise indicated) and to be as listed. Furthermore, the cataloguer reserves the right to accept or reject any or all bids at his discretion.

12. All lots in this auction will be available for inspection by appointment only prior to May 18, 1977.

TERMINOS DE VENTA

1. Este es un remate por correo. Todas las apuestas (o pujas) tendrán que ser recibidas en nuestro lugar de negocio no después de las 11:00 p.m. hora de San Antonio, Texas, del día 22 de mayo de 1977. La apuesta más alta para cada lote es la que comprará dicho lote. La apuesta más alta podrá ser reducida hasta el punto de ser un poco más que la segunda apuesta más alta (ver artículo 2). Sobre estas bases, es obvio que los compradores deberán hacer apuestas generosas, si están deseosos de obtener cualquiera de los lotes en particular.

2. Términos de reducción: (a) No se aplicará ninguna reducción en apuestas de \$10.00 o menos. (b) Sobre las apuestas de \$10.01 en adelante, la más alta será reducida hasta el 10% sobre la segunda apuesta más alta. Por ejemplo, si su apuesta en el lote #100 es de \$70.00 y la segunda más alta es de \$50.00, usted obtendrá el lote por \$55.00 (o sea \$50.00 + 10%). Sin embargo, si su apuesta es de \$70.00 y la segunda más alta es de \$65.00, entonces ninguna reducción será aplicada, ya que si añadimos el 10% a la segunda apuesta más alta, el lote llegaría a costar \$71.50. Cuando las reducciones sean aplicables, la cantidad será redondeada al próximo medio dólar.

3. Se ha estimado un precio para la mayoría de los lotes. Estos precios estimados simplemente representan la idea que el dueño tiene sobre el valor del artículo, o nuestra opinión profesional de valor del lote. ACLARAMOS QUE SON SOLAMENTE PRECIOS ESTIMADOS Y QUE USTED PUEDE APOSTAR MAS ALTO O MAS BAJO SEGUN SU PROPIO CRITERIO. Para aclarar este punto, por favor lea los precedentes artículos. Recomendamos que si usted está seriamente interesado en un lote, lo mejor será que apueste cerca o más del precio estimado en este catálogo.

4. Todas las apuestas indicarán el número del lote como aparecen en este catálogo. (Por favor, cerciôrese que sus apuestas sean legibles.) Apuestas serán hechas sólo en dólares Estado Unidenses. En caso de empate en una apuesta, preferencia se le dará a la apuesta que es recibida primero.

5. Los lotes serán enviados a crédito solamente a clientes que tienen crédito establecido con nosotros. Nuevas cuentas tendrán que proveer referencias de crédito satisfactorias y preferible 20% de depósito. Cuentas nuevas que soliciten los envíos a Casillas Postales, deberán proveer también sus direcciones domiciliarias o de su negocio. A los compradores que no han establecido crédito con nosotros se les enviará la factura correspondiente por lotes que han ganado y se les enviará la mercadería al recibir el pago.

6. Todas las apuestas ganadoras tendrán que ser pagadas por medio de giro o cheque pagable en los Estados Unidos o en efectivo inmediatamente al recibir los lotes o factura. Acuerdos especiales para hacer pagos son posibles si la cantidad apostada merece tal trato. Si esto es necesario, por favor, pídale ANTES de que se cierre la subasta, no después.

7. Tarjetas de crédito; BankAmericard, Mastercharge o American Express, se pueden usar para hacer pagos, pero el apostador tiene que pagar el servicio de cargos facturados a nosotros por esas compañías en tales transacciones (3% en BankAmericard, 4% en MasterCharge y 5% en American Express). Nuestros clientes fuera de los Estados Unidos además pueden pagar por giros internacionales de bancos u otra forma previa y mutuamente acordada antes de cerrar la subasta.

8. Cargos de seguro o certificación de los envíos se le agregarán a todas las facturas. Apostadores deben de indicarnos si existen instrucciones especiales de despacho. Apostadores fuera de los Estados Unidos pagarán el cargo de 1% del valor total para cubrir parcialmente los gastos de seguro y nuestra compañía de seguros sea responsable por cualquier pérdida.

9. No es aplicable a nuestros clientes en el extranjero.

10. Las ventas en los remates no son ventas aprobadas por el cliente cuando él recibe la mercadería, sino que cuando el cliente somete su apuesta, él entra en un acuerdo para comprar la mercadería. Cuando el cliente apuesta, él indica que está de acuerdo con los términos de venta de este remate. Todos los lotes han sido descritos por expertos en la materia; si algún error ha sido cometido por ellos, nosotros estaremos complacidos en corregirlo. THE PETER W. BROEGER COLLECTION
OF
GUATEMALAN NECESSITY ISSUE 1/2 REAL COUNTERSTAMPS
THE 1/2 REAL 1894 OF GUATEMALA COUNTERSTAMP ON
LATIN AMERICAN CROWNS.

ARTICLE BY

PETER BROEGER

AS REPRINTED FROM ACTES DU 8eme.
CONGRES INTERNATIONAL DE NUMISMATIQUE
SEPTEMBER 1973.

Introduction

One of the most voluminous-yet little known- genuine necessity issues of modern times was that of Guatemala, decreed on July 10th, 1894. This issue consisted of the counterstamping of Latin American crown size coins, other than those of Guatemala, with dies of a Guatemala 1/2 Real of 1894. According to figures supplied by the mint of Guatemala, a total of 3,248,621 coins were counterstamped in this way, making this certainly the largest official counterstamp issue of modern times. Yet relatively little is known about this issue, since in Guatemala at that time, as well as in most other areas of Latin America, few records were kept and little background history was recorded.

Not only is this Guatemalan issue of necessity money the most prolific of modern times, but the employment of coin dies for the counterstamping process-coupled with the fact that the coins were counterstamped both on obverse and reverse simultaneously-makes this counterstamp a very distinguished and intricate one, and difficult then to fabricate falsely and/or to copy. All fakes that the author has seen were alterations to the date of the original coin rather than an attempt to fake the counterstamp as such. Of course, the fact that more than 3 million coins were counterstamped makes the issue from a type point of view a relatively common one. It is only when we search for dates of the original coin in counterstamped form that we find scarce, rare and sometimes unique specimens.

Historical background

When we look at the historical development of Central and South America of that era, we find that most countries had gained their independence from Spain and Portugal within the past 50 years or so. After initial upheavals and government instability, by the year 1894 certain internal governmental patterns had developed in most countries leading to economic growth and prosperity. Prosperity then brought the need for responsible fiscal policies and currencies. Many of the silver mines of South America had by then become depleted through the unscrupulous exploitation of colonial rulers and most Latin American countries were forced to buy silver for their coinage on foreign markets with monies earned through export trade. Paper money was not at that time readily accepted by the average Latin American.

When General José María Reyna Barrios became President of Guatemala in 1892 and formed-for those days- a rather progressive government, he realized the importance of unifying the country's monetary system. He knew that it was important to increase the coinage then in circulation to facilitate the ever increasing commercial trading volume of the country which had led to the circulation within Guatemala of currencies of many other countries, primarily those of Peru and Chile. But it was not only the increased prosperity within Guatemala that had brought on a shortage of currency; it was also, and possibly to a greater extent so, the fact that British Honduras had adopted on July 15th, 1887, the Guatemalan Peso as the standard currency of British Honduras, interdicting thereby the circulation of any British money in that colony. While British Honduras' economy today is quite stagnant, if it can be said to exist at all, in those days British Honduras was a prosperous British colony exporting to the world hardwoods, primarily mahogany. The adoption of Guatemalan coinage in British Honduras of course caused great amounts of Guatemalan coinage to disappear into British Honduras. But not only was Guatemalan coinage current in British Honduras, it was also recognized as an extra official currency in almost all other Central American Republics.

It is perhaps appropriate to note here that Argentina between 1850 and 1890 issued only 600,000 crown size coins. In the like period Brazil-by far the most populated country-issued in these 40 years a total of only 2 million crown size coins most of which anyway were over-stampings of Portuguese 960 Reis coins, Columbia issued only 500,000 crown size coins, while Ecuador issued only 1 1/2 million crowns during these 40 years. El Salvador issued no coinage at all for most of this period between 1892 to 1896 issued 900,000 crowns, while Uruguay between 1850 to 1893 issued only 1 million 1 Peso coins.

Other Central and South American countries hardly issued any coinage at all. Chile and Peru were the exceptions; Chile issued between 1850 to 1890 something like 25 million crowns, while Peru issued between 1888 and 1892-in 4 years in other words-a total of 14 million Soles and Pesetas.

The decree of 1894

In 1893, Guatemala ordered dies for a new coinage issue and reduced the silver content in the smaller denomination from 900 fine silver to 835 fine silver. This reduction in silver content was hopefully designed to keep currencies within Guatemalan borders. The die designs were carried out by the well-known Parisian engraver La Grange. Only the 4 Reales and 8 Reales or 1 Peso pieces were to be minted in 900 fine silver. Furthermore, the Guatemalan Mint negotiated an agreement with the Heaton Mint of Birmingham, England, to have coins also minted there bearing the (H) mintmark. We have therefore 1894 dated coinage alike in all aspects except that some coins bear the (H) mint mark while others do not.

This led to the Government decree already mentioned ordering all foreign coinage to be turned in to the mint between August 10th and September 15th, 1894, in exchange for the new Guatemalan coinage partly minted by the Birmingham Mint and partly by the Casa de Moneda in Guatemala. The law further restricted the import of foreign monies by travellers to a maximum of 300 Pesos per person. It was advantageous for the Guatemalan Mint to melt down all minor currencies of 900 fine silver and re-issue coinage in 835 fine silver; however it was more convenient to countermark the foreign crown size pieces-which were to be of 900 fine silver anyway-with the Guatemalan 1894 1/2 Real dies, without the (H) mintmark of course.

Photographs are available of any lot listed in this catalog. For coins, tokens, and medals the charge will be \$1.00 per item. Xerox copies are available of any note listed in this catalog at a cost of \$.50.

GUATEMALAN NECESSITY ISSUE 1/2 REAL COUNTERSTAMPS

This created a type series of counterstamped Latin American crown size coins, some of which are quite rare. It also created a second series, which duplicated in counterstamped form the original Peruvian and Chilean issues by date and assayer, reflecting in degree of scarcity, the degree of scarcity of the original issues.

Since the science of numismatics was relatively unknown in Latin America in those days, scholars first thought the countermark of 1/2 Real to have been some sort of tax imposed upon the owner of foreign coinage, but the mint in fact never charged a fee for the countermarking.

Additional confusion arose also because of the 835 fine silver marking on the 1/2 Real counterstamp die, while the coins themselves were in fact of higher 900 silver content.

And perhaps to prove how unexciting and dull things would be without someone making a mistake by contemporary error a number of Guatemalan coins not actually requiring the (stamp of legality) were none the less counterstamped. Even a freshly imported Guatemalan Peso dated 1894 had to suffer the double indignity of having to display firstly the (H) mintmark, and secondly to be subsequently counterstamped, thereby proving twice its lawful right to existence.

ABOUT THE NUMISMATIST AND AUTHOR

Peter W. Broeker, one of Canada's foremost racing drivers, is a man of varied interest and background. Born in Hamilton, Ontario, Canada, Mr. Broeker traveled extensively as a child and attended schools in South America, Europe and the United States, where he studied history and Political Science. He competed in both Formula 1 and Formula 2 auto races in North and South America, North Africa and Europe, during his driving career ultimately establishing an automotive parts manufacturing company which distributes to customers throughout the world. Mr. Broeker began collecting coins in the course of his many travels. While numismatics still is considered only a hobby, Mr. Broeker is regarded as an authoritative numismatist and respected author who has received several prestigious numismatic awards. He is the author of "Olympic Coins From Antiquity to the Present", a book which can be obtained from Almanzar's.

The collection of Guatemalan 1/2 Real counterstamps is very popular among collectors of Guatemalan coinage and the 8-Real-and-Peso specialists. The collection here has been listed by the respective country of origin and date. Additionally, by request, as several of our customers are interested in the varieties of the counterstamps, we have indicated on which side of the crown the "Seated Liberty" of the 1/2 Real counterstamp appears.

COLOMBIA

*189	-E34	T9	C159	10 Reales 1848 Undoubtedly struck at the mint from the original die, but a copper issue. Really a trial piece but may have been used as a button as there is an indication that a hook or some foreign matter was removed from the reverse in the center of the coin, the usage of coins as buttons should not come as a surprise, as it was customary, particularly in the colonial period. This led to issuance of coin-like buttons in order to discourage usage of regular coinage, however, this piece has all of the specifications of the regular coins except struck in copper. EIGHT REALES & PESOS OF THE NEW WORLD

LOT#	DESCRIPTION	HONDURAS (CONT)	ESTIMATE
*282	-A set of 8 Honduran Provisional Coinage 1862: 1,2,4 8 Peso proof, also the 1,2,4 & 8 Pesos, regular issue, mounted handsomely in plexiglas. The four proof coins struck in England are superb choice specimens. In fact, prior to their being mounted in a frame, each piece rested in its original case. The regular issue coins struck in Tegucigalpa are uncirculated specimens, some with luster. The 1,2 & 4 Pesos have bright copper shading highlighting the design. The 8 Peso is dark with traces of luster. See our plate section for photos of this set, including a close-up of the lower right quadrant of the reverse on regular issues. Some of you may not be aware of the mintmark there. A tiny "H" is superimposed upon the fallen leaf to the right of the ceiba tree. This unique set can be the star of your collection previously offered at \$2,100 and offers must exceed		1800.00+

*490	-EP4 T2 C125a 8 Reales Royalist Crown and 1824 date counterstamped over 1823JB Lima 8 Real. These coins were counterstamped by a Spanish General. Counterstamp is in the obverse of the original coin. Coin is VF with edge ding	160-225.00
*491	-Same as above except the counterstamp is in the reverse side of the original coin. Grade is also somewhat similar, free of edge dings and weak obverse.	160-225.00
*492	-E99 T10 8R 1823 JP - Royalist issue with bust over crown in the obverse's field. Issued by the Royalist in showing their devotion to Ferdinand VIII by striking his image and insignia over (E99, Tyl0). Originally minted by the revolutionary insurgents. Carlos Elizondo Jr. on Page 152 of the second edition of his book "Eight Reales and Pesos of the New World", states that this coin is very rare. The coin offer is Fine with tooling at 12 o'clock. The coin is the second one we have ever offered. Our first specimen was featured in our January 1st, 1976 catalog (photo in cover). That particular coin was then offered in VF+ at \$1,350.00. The weakness of the strike in the coin now offered must be taken into consideration. Actually the royalist crown is just visible to the right of the obverse. This type coin which will be featured in future editions of 8 Reales and Pesos book as a new type may be yours if you exceed the owner's reserve of only	300.00

ALL LOTS IN THIS AUCTION WILL BE AVAILABLE FOR INSPECTION BY APPOINTMENT ONLY PRIOR TO MAY 18, 1977.

LUXEMBOURG			
*723	-C20 Bachtell 4254, 72 Sols 1795, Franz II., coin was issued by Austrian defenders during seige of Luxemburg city 1794-1795. (Evaluation in Craig 3rd Edition, which is really conservative, shows \$1,000.00) It is undoubtedly one of the rarest seige pieces of Europe. Coin is about as struck, but due to its crudeness, we will call it Crude VF with adjustment marks as expected		1,000.00+

*745	-H3, NEW ZEALAND 1935 WAITANGI Proof set - six (6) Silver coins Y1-Y6, in original box of issue. Quite rare as only 364 sets were issued. Seldom offered as a set. In addition to the handsome and rare crown, the set includes the 3 Pence, of which a total of only 40,000 were minted, and of course, the 6 Pence Shilling, Florin, and 1/2 Crown. Altogether a very desirable set. In August 1972 in our Vol. II of the gigantic auction of the King Farouk Collection of Latin American Banknotes, we offered one of these sets. It then sold for \$1,100.00. We all know that since then due to galloping inflation and an ever increasing interest in numismatic material, most choice items have doubled and tripled in price. For this set the consignor is asking for bids exceeding only		1,450.00

The fact that we have only seen this one piece in 16 years of our numismatic history tells us that there are few like it around - perhaps 5 to 10 pieces? The Medals commemorate some of the most important events of one of the United States' most unique cities. The events commemorated are: The Anniversary of the founding of San Antonio, the 150th Anniversary of San Antonio's Mint and lastly the 10th Convention of the Texas Numismatic Association.

First, the common reverse of each medal features the Alamo and commemorates THE 10TH TEXAS NUMISMATIC ASSOCIATION CONVENTION.

Second, Obverse "A" COMMEMORATES THE 150TH ANNIVERSARY OF SAN ANTONIO'S MINT. It depicts the site of the Garza Mint and the obverse and reverse of coinage minted there. On one side are the initials J. A. G. (for Jose Antonio Garza) and the date. The other side of the coin features the Lone Star of Texas. It is in fact of great interest that this is the first known use of the Lone Star as the symbol of Texas.

Third, Obverse "B" commemorates THE 250TH ANNIVERSARY OF THE CITY OF SAN ANTONIO, 1968. It depicts the skyline of San Antonio and structures of the World's Fair in the background surrounded by the legend.

The Medals are in fact designed in a manner in which, when displayed, the three different important events which encompass a variety of interesting designs are readily visible. Therefore, twice as many were struck of the medal which features the Garza Mint. Since the founding of the city in 1718, this tiny Spanish presidio was first inhabited by the Spaniards from the Canary Islands and has since become a metropolis of a million inhabitants and the 10th largest city of the United States. Typifying the change that the city has undergone since then, is the obverse of the medal depicting the theme of the largest building west of the Mississippi River and the world's tallest reinforced concrete tower. The view from its observation decks and restaurants covers over 30,000 square miles.

So important are the three events commemorated and so appropriate the design, that the United States Treasury Department took an unprecedented step in authorizing the striking of a very limited number of gold proofs, only 5 sets were actually authorized but only one set of 3 pieces and 3 sets of two were actually issued. There is a two-piece set of the gold medals at the American Numismatic Association Museum which in fact excludes the duplicate medal intended for more immediate viewing. There is also a two-piece set at the Texas Numismatic Memorial Museum. In actuality, the set hereby offered is the only three-piece set in existence and the only privately owned set. Col. Frank O'Sullivan of San Antonio, who also served as chairman of the Numismatic Convention, and to many numismatists is known for his expertise in the field of ancient numismatics, was in fact the person that conceived and researched these historical pieces and rightfully presented the three-piece set hereby offered.

RARE SET OF TRIPLE COMMEMORATIVE MEDALS OF SAN ANTONIO, TEXAS
 PROGRESSIVE DIE STRIKES OF THE THREE SAN ANTONIO TRIPLE EVENTS MEDALS
 A GROUP OF 23 PIECES EXECUTED IN THE OLD METHOD

Until the Twentieth Century, all coin and medal dies were initially engraved the actual size, and in order to maintain proper proportions and perspective, the engraver at various significant stages would strike a copy of the partially finished die in soft metal. With the invention of the reducing machines and die hubs which permitted a sculptor to model the coin in very large size with sculptor's clay the fine art of engraving dies the actual size of the finished coin which had endured for over 2500 years practically became a lost art.

As this is a lost art method of striking medals, excluding a few pieces retained by the French Mint, to our knowledge, this set of trial strikes may be unique, and should be considered of great and historical and numismatic value.

*1672E-The 23 pieces of Progressive Die Strikes hereby offered are as follows: (A) The San Antonio City Skyline design (7 Pieces), (B) The Alamo set (9 Pieces), and (C) The Garza Mint set (7 Pieces).

Birthday Presents

SAN ANTONIO'S 250th anniversary will be commemorated on Thursday with the unveiling of a marker at Alamo and Commerce Streets, near the Chamber of Commerce headquarters.

The marker has been presented to the City by the Texas State Historical Survey Committee.

It sets forth that this area was first explored by the Spaniards in 1691 and the mission now named "The Alamo" was founded in May of 1718.

The inscription touches briefly on San Antonio's early history and ends with a reference to HemisFair and its "confluence" theme.

Another birthday present, so to speak, is the striking of medals in connection with the forthcoming convention of the Texas Numismatic Association.

These medals commemorate three events: San Antonio's 250th birthday, the 10th convention of the numismatists, and the 150th anniversary of San Antonio's Mint.

The only known coinage to be struck during Spanish Colonial times in what is now an American city was produced in 1818 when Jose Antonio Garza minted copper coins in a building which is illustrated on one of the medals.

Another medal bears a representation of the Alamo and both show the Tower of the Americas and the HemisFair site on the opposite side.

The medals, which are slightly larger than a silver dollar, will serve as awards and convention medals, but they will also be offered for sale to collectors and the public.

This numismatic rarity was conceived, researched and designed by Frank O'Sullivan of San Antonio, a nationally known expert, who is general chairman of the Texas Numismatic Association's convention June 17-19 at the Gunter Hotel.

TO THE LEFT: Newspaper clipping from a local newspaper.

ABOVE: Cutting of the ribbon at the 10th Texas Numismatic Association Convention which was celebrated in San Antonio at which time the medals were presented.

LEFT TO RIGHT: Col. Frank O'Sullivan of San Antonio, the researcher, designer, and the recipient of these historical medals. In center, Walter W. McAllister, Sr., who served as Mayor for the City of San Antonio from May, 1961 through May, 1971. To the right, in the act of cutting the ribbon, guest of honor, nationally known figure, Congressman Henry B. Gonzalez, serving San Antonio from November 4, 1961 to the present.

This might be a lifetime opportunity for the serious and advanced numismatic collector to obtain a set of this rarity, unusual characteristics and beauty. The set ranges in scale of rarity from R3 to R5 in the CATALOG OF PAPER MONEY OF COLOMBIA/PERU by Beresiner/Dargent. Also note that the photo in their catalog is marked as a specimen note with serial no. of 000. The set we are offering is in fact a uniformly numbered set with serial no. 485. <u>El Banco de la Republica Oriental del Uruguay</u>		
*1967	-UR143, 10 Pesos, Law of 4 de Agosto de 1896, dated 1° de Enero de 1899, Allegorical woman leaning on pedestal at left, coat of arms right, BW & C. These notes were put into circulation in early 1899. One counterfeit note was shortly thereafter found in circulation. The false note was of such excellent quality that even the representatives of BW & C declared it to be an extremely dangerous counterfeit, inasmuch as it would be easily accepted by almost anyone. The entire issue of 200 thousand notes was recalled and destroyed in a short time. Needless to say either the original or the counterfeit issue is of the utmost rarity. It is of course possible that <u>all</u> were in fact destroyed; not listed in Pick. FINE, Extremely Rare	-----
